Education

St. Andrews Institute of Technology and Management <i>Bachelor of Technology in Computer Science and Engineering</i>	2022 – 2026
M.A.S.D Public Sr. Sec. School <i>Senior Secondary(XII)</i>	2021

Achievements

- **Freelance Full-Stack Developer:** Successfully built and deployed production-level web applications for multiple businesses using modern tech stacks (TypeScript/React, Node.js, MongoDB), focusing on scalability and user experience.
- **Security Research & Pentesting:** Proficient in identifying vulnerabilities and securing web applications using industry-standard tools like Burp Suite, Nmap, Wireshark, and Metasploit.
- **Performance Optimization:** Integrated optimized backend architectures for clients, resulting in faster load times and improved SEO for their business platforms.
- Extensive hands-on experience with **Network Analysis and Automated Security Testing**, ensuring robust software delivery.
- Solved complex engineering challenges in real-world environments, transitioning from local development to cloud-ready production systems.

Technical Skills

Languages: TypeScript, JavaScript (ES6+), Java, Python, C++, C, Go.
Technologies: React.js, Next.js, Node.js, Tailwind CSS, HTML5, CSS3.
Databases & Backend: MongoDB, SQL (PostgreSQL/MySQL), Firebase.
Cybersecurity Tools: Nmap, Burp Suite, Wireshark, Metasploit, Hydra, Linux (Kali/BlackArch)
Computer Fundamentals: Object Oriented Programming, Data Structures and Algorithms, Database Management Systems, Operating Systems, Computer Networks, Software Engineering, System Design
Other Tools: Git, Github, VS Code , Postman , Docker

Position of Responsibility

Lead Freelance Developer | Independent Consultant: Spearheaded the end-to-end development of production-level web applications for diverse business clients using TypeScript and Tailwind CSS. Managed the entire project lifecycle, from initial client requirement gathering to final deployment and maintenance, ensuring 100% client satisfaction through robust and scalable code.
